

Directory of Internships & Work Placements

The Hydrographic Society UK has compiled this directory to assist students and graduates in identifying companies which may be willing to offer them internships and work placement opportunities.

In the process of gathering the information a few companies have indicated that they do not currently offer internships or placements and would therefore not to be contacted by candidates looking for such openings. Those companies are:

- Fugro Survey Ltd (Aberdeen)
- Gardline Geosurvey Ltd
- Seatronics Ltd (Abu Dhabi)

Disclaimer: This information has been compiled by The Hydrographic Society UK based entirely on information provided by the companies detailed within the Directory. Although The Hydrographic Society UK has made every effort to ensure that the information was correct at the date of publication, the Society does not assume and hereby disclaims any liability to any party for any loss, damage, or disruption caused by errors or omissions, whether such errors or omissions result from negligence, accident, or any other cause.
